

At Illuxtron International we research and manufacture inventive lighting solutions, which offer as much comfort and ease as possible, all without damaging the environment on a day to day basis. After many years of experience in product development our results show in a range of completely self-developed, high-end luminaires. During production we only use high quality

About Illuxtron International

materials and we test our products extensively. We pay attention to every detail. Therefore, we are able to offer our clients products that seamlessly meet and often exceed their expectations. As production takes place in the Netherlands, we are also able to monitor the production process closely. This means we are able to guarantee the highest level of quality, and as a result, we offer a 7 year warranty. Each individual department in our company works closely together, allowing us to achieve a shorter delivery period than our competitors.

Customer satisfaction and flexibility are our top priorities. We help our clients find suitable lighting solutions and adjust our offers where needed. Long term relationships with our clients is what we strive for. This results in a straightforward way of doing business. Integrity, professionalism and knowledge are the reasons you can rely on our service. All of the above makes Illuxtron International distinctively different from our competitors.

Illuxtron International wants to reward you with brightness, by bringing new perspectives to light: today, tomorrow and beyond.

ILLUXTRON®
REWARDING BRIGHTNESS

Linezza Air

Linezza Air

Linessa Air

Lighting with integrated ventilation

Before, with separate air ventilation and lighting

After, with Linessa Air and integrated ventilation.

A unique combination of both lighting product and a ventilation system, which results in a clean ceiling design. OrangeClimate and Illuxtron International collaborated in such a way that both their best products fit seamlessly together.

APPLICATION EXAMPLE

The ventilation can be spread over additional units to avoid an unwanted airflow. Each luminaire can either be used for blowing air in the room or to let the air escape from the room.

FEATURES AND BENEFITS

- Comfortable Airflow
- Suitable for every system
- No irritating glare
- Highest Lumen / Watt
- Homogeneous light pattern
- Designed and produced in the Netherlands
